

CALL FOR PAPERS

ICGET 2022
Mar 22-23, 2022
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGET 2022 : International Conference on Greenhouse Effect and Temperature is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Greenhouse Effect and Temperature. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Greenhouse effect	Earth's natural greenhouse effect
Mechanism of greenhouse effect	Science and policy
Greenhouse gases	Scientific issues surrounding the greenhouse effect
Atmospheric greenhouse gas concentrations	Temperature scales
Carbon dioxide greenhouse effect	Forms of heat transfer
Greenhouse gas technologies, control, and management	Electromagnetic spectrum
Role in climate change	Planck law
Real greenhouses	Stefan-boltzmann law
Bodies other than earth	Inverse square law
Radioactively active gases	Reflectivity or albedo
Atmosphere's temperature	Solar (shortwave) and terrestrial (longwave)
Global warming	Radiation
Human activities
