

CALL FOR PAPERS

ICPPR 2022
Mar 15-16, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPR 2022 : International Conference on Pharmacoepidemiology and Pharmacoepidemiologic Research is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pharmacoepidemiology and Pharmacoepidemiologic Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pharmacoepidemiology and clinical research

Pharmacoepidemiologic studies

Pharmacoepidemiology in the health-care and industry

Using negative controls in observational research

Clinical pharmacology and pharmacoepidemiologic studies

Automated databases in pharmacoepidemiology

Pharmacoeconomics: economic evaluation of pharmaceuticals

Bioethical issues in pharmacoepidemiologic research

Clinical pharmacology and therapeutics

Pre-clinical and clinical trials

Clinical drug development

Drug safety and pharmacotherapy

Pharmacology

Genetic epidemiology

Risk management

Adverse drug reactions

Case reports in clinical trials

Pharmacovigilance and its significance

Clinical data management

Regulatory affairs

Clinical pharmacy

Diversity in industrial clinical research
