

CALL FOR PAPERS

ICAPT 2022
Mar 25-26, 2022
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPT 2022 : International Conference on Agricultural Production and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Production and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural products and food engineering

Advanced machinery engineering and manufacturing systems

Animal production systems engineering

Agricultural machinery and livestock technology

Food science and automation technology

Agricultural production and processing facility technology

Farm and ranch management

Crop management with precision farming

Fundamental and applied aspects of food biotechnology

Food and agricultural biosecurity

Precision agriculture and crop monitoring

Natural resource and ecology management

Waste management and utilization for biosystems

Farm buildings, equipment, structures and environment
