

CALL FOR PAPERS

ICEER 2022
Mar 25-26, 2022
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEER 2022 : International Conference on Energy Efficiency and Renewables is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Efficiency and Renewables. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power engineering
Energy engineering
Energy efficiency
Renewable energy
Sustainable energy
Sustainable energy policy
Sustainable energy hierarchy
Domestic energy resources
Domestic energy consumption
Appliances
Building design
Energy efficiency by country
Industry

Transportation
Automobiles
Street lighting
Aircraft
Alternative fuels
Energy conservation
Rebound effect
Organisations
Goal to reduce the amount of energy
Fluorescent lights, led lights or natural skylights
efficient technology or production process
Problem of reducing greenhouse gas emissions
