

CALL FOR PAPERS

ICAMA 2022
Mar 11-12, 2022
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMA 2022 : International Conference on Amorphous Metals and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Amorphous Metals and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Amorphous metals
- Amorphous metal alloys
- Chemistry of amorphous metals
- Chemical engineering for amorphous metals
- Liquid metal alloys, amorphous metal and metallic glasses
- Chemistry, structure, and properties of amorphous metals
- Preparation and characteristics of amorphous metals
- Surface chemistry of amorphous metals
- Methods of producing amorphous metals
- Structural and dynamical properties of liquid and amorphous phases
- Bulk amorphous glasses
- Experimental techniques for investigating amorphous matter
- Simulation techniques for studying structure, dynamics and properties of amorphous systems
- Glass formation
- Magnetic glasses
- Amorphous semiconductors
- Mechanical and chemical properties
- Bioabsorbable metallic glass
- Glass-ceramic-to-metal seals
- Liquidmetal
- Materials science
- Structure of liquids and glasses
- Amorphous brazing foil
