

CALL FOR PAPERS

ICAH 2022
Mar 04-05, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAH 2022 : International Conference on Advances in Hydrogels is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Hydrogels. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hydrogel
3D hydrogels
Electroconductive hydrogels
Biomimetic hydrogels
Engineering hydrogels
Hydrogel biomaterials
Hydrogels in regenerative medicine
Nanocomposite polymer hydrogels

Biomedical applications of hydrogels
Methods of synthesis of hydrogels
Preparation, characterization and applications of hydrogels
Classification of hydrogel products
Hydrogel product sensitive to environmental conditions
Utilization of hydrogel products
Technologies adopted in hydrogel preparation
Hydrogel technical features
