

CALL FOR PAPERS

ICHSEMI 2022
Mar 04-05, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHSEMI 2022 : International Conference on Health Systems Engineering and Medical Information is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Health Systems Engineering and Medical Information. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Health systems engineering
Health engineering
Healthcare systems optimization
Healthcare delivery, measurement
and modeling
Statistical and quantitative
models
Healthcare delivery systems
Healthcare systems modeling
Medical information
Healthcare industry
Health information systems
Production and health care system
Health care management operations
Assessment of medical technologies

Patient-centered systems
Roles in healthcare products,
systems and delivery
Engineering design and product
development
Regulatory science
Risk science and failure analysis
Economic analysis,
reimbursement/payment models, and
value engineering
Information technology and
software
Public policy and management
science
Other applications: beyond
healthcare-oriented areas
General consumer product safety
Digital health
Transportation safety
Environmental health
