

CALL FOR PAPERS

ICHSI 2022
Mar 04-05, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHSI 2022 : International Conference on Health System Infrastructure is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Health System Infrastructure. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Healthcare infrastructure and technology
Healthcare systems
Healthcare infrastructures and case studies
Advances in healthcare infrastructures and applications
Infrastructure environments
The capacity-building and support activities
Management of health facilities and health districts
Quality improvement
Infrastructure development

Medical devices including equipment
Human resources planning, development and management
Information management and systems support
Values and attitudes of staff
Reduction of waiting time
Cleanliness and hygiene
Patient safety, clinical care and governance
Infection prevention and control
Availability of basic medicines and supplies
