

# CALL FOR PAPERS

**ICADAI 2022**  
**Mar 29-30, 2022**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADAI 2022 : International Conference on Aircraft Design with Artificial Intelligence is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aircraft Design with Artificial Intelligence. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial intelligence in aircraft design  
Aircraft design cycle time reduction using artificial intelligence  
Aircraft design optimization with artificial intelligence  
Computer-aided aircraft design and manufacturing

The conceptual design of aircraft  
Computer support tools in aircraft design  
Design and modeling of aircraft structures and components  
Algorithm-driven design
