

CALL FOR PAPERS

ICDPC 2022
Mar 29-30, 2022
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDPC 2022 : International Conference on Design of Power Converters is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Design of Power Converters. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Design and control of power converters
New control techniques in power electronics
Converters based on wide-band-gap devices
High-power converters
Low-power converters
Reliability-oriented design and control
Lighting

Motor drives
Renewable energies
Power quality and utility applications
Solid State transformers
Micro- and nano-grids
Electric vehicles
Battery management systems and battery equalizers
