

CALL FOR PAPERS

ICERICN 2022
Mar 29-30, 2022
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICERICN 2022 : International Conference on Evolutionary Robotics and Intelligent Computer Network is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Evolutionary Robotics and Intelligent Computer Network. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolutionary robotics
Computational intelligence
Intelligent computer network and systems
Evolutionary computation
Autonomous robots
Genetic algorithms

Artificial neural networks
Robot learning
Developmental robotics
Artificial life
Intelligent machines
Neurocybernetics
