

CALL FOR PAPERS

ICDEAD 2022
Mar 29-30, 2022
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDEAD 2022 : International Conference on Disinfection Engineering and Antimicrobial Drugs is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Disinfection Engineering and Antimicrobial Drugs. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Disinfection engineering	Respiratory tract infections
Disinfection and sterilization technologies	Upper respiratory tract infections
Principles of use of antimicrobial drugs	Lower respiratory tract infections
Susceptibility of infecting organisms	Urinary tract infections
Host factors	Pathogenesis
Pharmacological factors	Drug therapy
Drug resistance	Gastrointestinal infections
Multidrug resistance	Skin and soft tissue infections
Drug combinations	Central nervous system infections
Adverse reactions	Fungal infections
Superinfection	Medical device-associated infections
Chemoprophylaxis	Antibiotic policies
Clinical use	Free prescribing policy
