

# CALL FOR PAPERS

**ICFMRRM 2022**  
**Mar 29-30, 2022**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMRRM 2022 : International Conference on Ferrous Metal Recycling, Metal Recovery and Management is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ferrous Metal Recycling, Metal Recovery and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials science and engineering  
Metal recycling  
Ferrous metals  
Precious metals  
Non ferrous metals  
Benefits of recycling  
Metal recycling industry  
Global metals recycling  
Ferrous metal recycling  
Recycling hazardous and non-hazardous metals  
Metal waste management  
Metal recovery  
Recyclable materials

Processing  
Resources  
Hazards  
Economic role  
Scrap and scrapyards  
Savings in energy  
Savings in raw materials used  
Superabrasives  
Metallurgy  
Metallic elements and their intermetallic compounds  
Technology of metals  
Metalworking processes  
Metal forming
