

# CALL FOR PAPERS

**ICAMEA 2022**  
**Mar 25-26, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMEA 2022 : International Conference on Aerospace Manufacturing and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace Manufacturing and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing of aerospace components  
Manufacturing technology for aerospace structural materials  
Aerospace and defense manufacturing  
Aerospace and defense policies and law  
Aerospace component design  
Research for aerodynamics, engine and communication system  
Testing infrastructure and services  
Aluminium; magnesium and beryllium

Titanium  
High strength steels  
Superalloys  
Polymer matrix composites  
Adhesive bonding and integrally cocured structure  
Metal matrix composites  
Ceramic matrix composites  
Structural assembly
