

# CALL FOR PAPERS

**ICEMSN 2022**  
**Mar 25-26, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMSN 2022 : International Conference on Exercise Metabolism and Sport Nutrition is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Exercise Metabolism and Sport Nutrition. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Exercise metabolism	Adaptive physiology and the exercise response
Exercise biochemistry	Exercise, stem cells and epigenetics
Energy and energy metabolism	Brain, neural systems, heart, cardiovascular systems, muscle and mitochondria
Energy metabolism of macronutrients during exercise	Exercise and sport
Regulation of energy metabolism during exercise	Anatomy, biology and biosystems
Measurement techniques for energy expenditure	Exercise applications and health
Energy expenditure at rest and during various types of physical activity	Weight loss
Energy storage, expenditure, and utilization	Weight loss management
Exercise training and metabolic adaptation	Weight management strategies
