

# CALL FOR PAPERS

**ICCES 2022**  
**Apr 08-09, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCES 2022 : International Conference on Communications Engineering and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communications Engineering and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microwave communications systems  
Microwave transmission  
Microwave link networks  
Communications engineering  
Uses  
Microwave radio relay  
Planning considerations  
History  
Microwave link  
Properties of microwave links  
Uses of microwave links

Troposcatter  
Microwave power transmission  
Common safety concerns  
Proposed uses  
Current status  
Wave impedance  
Standing waves  
Microwave components  
Microwave cavities  
Microwave semiconductors  
Microwave measurements
