

# CALL FOR PAPERS

**ICGPRMT 2022**  
**Apr 08-09, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGPRMT 2022 : International Conference on Ground-Penetrating Radars and Modelling Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ground-Penetrating Radars and Modelling Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ground-penetrating radars  
Ground-penetrating radar field systems  
Ground penetrating radar design  
Modelling techniques  
Modulation techniques  
Signal processing  
Data display and interpretation

3D ground-penetrating radar data application  
Geophysical applications  
Vehicle localization  
Three-dimensional imaging  
Power regulation  
Radar velocity
