

CALL FOR PAPERS

ICLPMTA 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLPMTA 2022 : International Conference on Laser Precision Microfabrication Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Laser Precision Microfabrication Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Process monitoring and control
Laser- and photochemistry
Nanotechnology
Ultra-short pulse laser processing
VUV laser and x-ray processing
Surface treatment
Micro-patterning and
micro-structuring
Micro-machining
3-D micro- and nano-fabrication
Micro drilling and cutting
Micro welding and bonding
Micro forming
Wafer dicing

Marking and trimming
Packaging and mounting process
Lithography
Manufacturing of micro devices and
systems
Film deposition and synthesis of
advanced materials
Nanomaterials synthesis
Optics and systems for laser micro-
and nano-processing
Laser devices
Industrial applications
The future of ultra-short laser
manufacturing
Laser-based direct-write
techniques
Laser micro/nano-engineering for
biomedical applications
