

CALL FOR PAPERS

ICPFT 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPFT 2022 : International Conference on Processing of Protein Fibres and Textiles is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Processing of Protein Fibres and Textiles. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Textile products and processing
High performance technical, medical
and military textiles
Nanotechnology for enhanced
performance
Industrial textiles, protective
clothing and composites
Enzymes and sustainable
technologies
Application of biotechnology
Re-use, re-manufacture and
recycling of textiles
Agriculture and natural fibres

Plant fibres from non-food crops
Process engineering for plant fibre
extraction
Processing of protein fibres and
textiles
Material performance and design
Predicting the performance of
fibres, yarns and fabrics
Bespoke software packages for yarn
and fabric design
3D textile design
Environmental and social assessment
