

CALL FOR PAPERS

ICPMPC 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPMPC 2022 : International Conference on Polymeric Materials and Polymer Characterization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Polymeric Materials and Polymer Characterization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Polymeric materials
Polymeric materials and polymeric biomaterials
Polymer synthesis
Biological synthesis
Modification of natural polymers
Polymer properties
Monomers and repeat units
Microstructure
Polymer architecture
Monomer arrangement in copolymers
Chemical properties
Optical properties
Mechanical properties

Tensile strength
Transport properties
Standardized polymer nomenclature
Polymer characterization
Thermal characterization of polymeric materials
Atom transfer radical polymerization of polymeric materials
Organic polymeric and non-polymeric materials
Environmentally friendly polymeric materials
Biodegradable polymeric materials
Crystallinity
Thermal transitions
Mechanical behavior
Polymer degradation
