

CALL FOR PAPERS

ICPST 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPST 2022 : International Conference on Paleoclimate Studies and Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Paleoclimate Studies and Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Paleoclimatology and paleoclimate studies
Palaeogeography, palaeoclimatology, palaeoecology
Environmental climate and climate change
Organic geochemistry and paleoclimate studies
Paleoclimatic studies in assessing climate change

Studies of paleoenvironmental and paleoclimatic data
Sedimentary geology and the future of paleoclimate studies
Weather forecasting techniques for paleoclimate studies
Mesozoic climates and vegetation
Paleozoic climates and atmospheric chemistry
