

CALL FOR PAPERS

ICSLMD 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSLMD 2022 : International Conference on Sustainable Land Management and Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Land Management and Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable land management
Sustainable land use management
Integrated landscape management
Development of land resources
Organic agriculture and agricultural engineering
Reforestation and forest management
Water resource management

Land management for eco-tourism
Land allocation decision support system
Prevention and management of illegal construction
Land reclamation and rehabilitation
Landscape ecology and environmental management
Rangeland management
Environmental planning and development
