

# CALL FOR PAPERS

**ICTNWMDM 2022**  
**Apr 08-09, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTNWMDM 2022 : International Conference on Technologies in Nuclear Waste Management Process Design and Materials is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Technologies in Nuclear Waste Management Process Design and Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nuclear waste management  
technology  
Waste management of nuclear  
materials and nuclear fuels  
Advanced aqueous and pyrochemical  
separation processes  
Transmutation of nuclear waste  
products

Thermal hydraulics and heat  
transfer  
Radioactive waste management and  
decommissioning  
Multiscale modelling, simulation,  
and optimization techniques in  
nuclear waste management  
Future developments in nuclear  
waste management technologies
