

CALL FOR PAPERS

ICOSRHSC 2022
Apr 22-23, 2022
Boston, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOSRHSC 2022 : International Conference on Open-Source Robotics Hardware and Software is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Open-Source Robotics Hardware and Software. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Open-source robotics
- Robot operating systems
- Current systems
- Open source gantry robots
- Open source robot arms and hands
- Open source mobile robots
- Open source aerial robots
- Open source humanoid robots

- Open source assistive robots
- Open source robotics middleware
- Software components
- Hardware components
- Microcontrollers, single-board computers and development tools
- Sensor, actuator and control applications
- Advantages and drawbacks
