

# CALL FOR PAPERS

**ICAED 2022**  
**Apr 29-30, 2022**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAED 2022 : International Conference on Airport Engineering and Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Airport Engineering and Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Airport Engineering  
Airport civil engineering  
Civil engineering for Airports  
Planning, design and construction  
of terminals and runways  
Airports design and construction  
Accessible airport facilities  
Airport design: additional tools  
and drawings  
Airports GIS and electronic airport  
layout plan

Airport lighting  
Airport pavement design and  
construction  
Airport airspace analysis  
Airport construction standards  
Airport design and engineering  
standards  
Airport and Safety areas  
Types of Airports: International  
Airports, Domestic Airports,  
Regional Airports  
Airfield
