

CALL FOR PAPERS

ICCTIT 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTIT 2022 : International Conference on Communication Technologies and Internet of Things is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communication Technologies and Internet of Things. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information and communication
technology
Communication systems and
engineering
Augmented and alternative
communication
RF and microwave engineering
Signal processing
Electronics and computer systems
Telecommunications and networks
Big data management and
application
Communication, network and
hardware

Internet of things
Cyber-physical system
Network infrastructure and
protocol
Human machine communication
Communication systems
VLSI and embedded systems
Emerging technology and
applications
Industrial electronics
Power systems and power electronics
