

CALL FOR PAPERS

ICFDT 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFDT 2022 : International Conference on Fluid Dynamics and Thermodynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fluid Dynamics and Thermodynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerospace Heat Transfer
Air Conditioning and Refrigeration
Biofuels and Internal Combustion Engines
Biological Heat Transfer
Bio-Thermal Fluid Science and Engineering
Boundary Layer and Free Surface Flows
Combustion and Reacting Flows
Computational Heat Transfer
Double Diffusive Convection
Energy Conversion and Clean Energy Technology
Energy Management and Energy systems
Enhanced Oil Recovery
Environmental Engineering

Environmental Heat Transfer
Experimental Techniques and Instrumentation
Fire and Combustion Heat Transfer
Gas Turbine Heat Transfer
Heat and Mass Transfer Equipment
Heat and Mass transfer in Biomedical devices
Heat and Mass Transfer in Biotechnology
Heat and Mass Transfer in Extreme Environments
Heat Transfer
Heat Transfer Education
Heat Transfer Equipment
Heat Transfer in Electronic Equipment
Heat Transfer in Energy Systems
