

CALL FOR PAPERS

ICGERGGHGA 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGERGGHGA 2022 : International Conference on Geological Engineering, Regional Geology, Geologic Hazards and Geologic Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geological Engineering, Regional Geology, Geologic Hazards and Geologic Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geological engineering
Regional geology
Geological study
Geologic analysis
Seismic and sequence stratigraphic analysis
Regional geologic hazards
Geological processes, hazards and resources
Large-scale regions
Geologically significant boundaries
Sedimentary rocks
Sedimentary basin system
Regional geography
Structural features, and surface forms

Structural geology
Measurement conventions
Plane, fabric, fold and deformation conventions
Stereographic projections
Rock macrostructures
Rock microstructures
Kinematics
Stress fields
Computer simulations
Tectonics
Geodynamic model
Collision tectonics
Deformational histories
