

# CALL FOR PAPERS

**ICMPMH 2022**  
**Apr 29-30, 2022**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPMH 2022 : International Conference on Metal Processing and Material Handling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Metal Processing and Material Handling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metallurgical fundamentals and techniques  
Nanotechnology, mining, metallurgical and material engineering  
Carbon based materials  
Casting and coating  
Composite materials  
High strength alloys  
Instrumentation and control  
Magnetic materials  
Materials physics  
Materials processing and handling  
Metal processing  
Mineral processing

Mining and safety  
Mining fundamentals and techniques  
Mining societal and economic aspects  
New materials and performances  
Petroleum engineering  
Polymetric materials  
Reservoir engineering  
Semiconductors  
Smart materials  
Solidification  
Surface phenomena
