

CALL FOR PAPERS

ICPMG 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPMG 2022 : International Conference on Polar Microbiology and Glaciology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Polar Microbiology and Glaciology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Polar microbiology
Polar microbial biodiversity
Polar biogeochemistry
Polar biogeography
Polar microbial biotechnology
Polar evolutionary biology

Polar microbial genetics, genomics
and proteomics
Polar microbiology
Polar molecular biology
Polar molecular ecology
Polar microbial physiology and
metabolism
