

# CALL FOR PAPERS

**ICRTMT 2022**  
**Apr 29-30, 2022**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRTMT 2022 : International Conference on Real-Time Manufacturing Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Real-Time Manufacturing Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Real-time manufacturing  
Real-time manufacturing systems and technologies  
Real-time manufacturing integration  
Real-time data collection and analysis for manufacturing  
Real time manufacturing intelligence  
Artificial intelligence for real-time manufacturing

Real-time manufacturing machine and system performance monitoring  
Risk management for real-time manufacturing  
Real-time manufacturing database architecture  
Real-time manufacturing information tracking  
Real-time manufacturing process monitoring
