

CALL FOR PAPERS

ICSEDAE 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEDAE 2022 : International Conference on Sustainable Environmental Design in Architectural Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Environmental Design in Architectural Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architectural engineering
Sustainable architecture
Negative environmental impact of buildings
Environment planning
Design
Landscaping
Management
Efficiency and moderation of materials, energy and development
Energy and ecological conservation
Sustainable energy use
Sustainable environmental design
Heating, ventilation and cooling system efficiency
Renewable energy generation

Solar panels
Wind turbines
Solar water heating
Heat pumps
Sustainable building materials
Recycled materials
Lower volatile organic compounds
Materials sustainability standards
Waste management
Building placement
Sustainable building consulting
Changing pedagogies
Sustainable urbanism and architecture
