

# CALL FOR PAPERS

**ICSMDA 2022**  
**Apr 29-30, 2022**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMDA 2022 : International Conference on Sustainable Materials, Design and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Materials, Design and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Alternate materials and advanced manufacturing processes  
Sustainable design using CAD/ CAM/ CAE/ CFD approach  
Advanced materials in civil engineering  
AI techniques in engineering applications

Advances in robotics and automation  
Nano science in engineering applications  
Advances in biomaterials and biomedical applications  
Sustainable materials in automobile, railway, marine, aerospace, chemical processing, electronic, electrical applications
