

CALL FOR PAPERS

ICTCPT 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTCPT 2022 : International Conference on Timber Construction, Preservation and Treatment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Timber Construction, Preservation and Treatment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Timber construction
Timber frame buildings
Timber as a sustainable building material
Timber impacts compared to other materials
Timber preservation and treatment
Recycling and disposal
Technology
Reliability of timber structures
Solid timber construction
Seismic strengthening of traditional timber structures
Timber structures modelling

Material
Timber products
Design of timber structures
Timber framed houses
Environmental credentials
Wood frame construction
Structural system
Use and cost
Seismic performance
Seismic deficiencies
Typical seismic-strengthening techniques
