

# CALL FOR PAPERS

**ICWCET 2022**  
**Apr 29-30, 2022**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCET 2022 : International Conference on Wireless Communications Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless Communications Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless Communications Engineering  
Communication and Information  
Theory  
Computer and Network Security  
Cross-Layer Optimized Wireless  
Networks  
MIMO Systems  
Mobile Computing  
Multimedia over Wireless  
Next Generation Mobile Networks  
WiMAX/WiBro Services and QoS  
Management

Wireless LANs and Wireless PANs  
Wireless Sensor Networks  
Pervasive/Ubiquitous Computing  
Mobility and its Applications  
Cooperative and Cognitive Networks  
Autonomic Wireless Networking  
Emergency Management: Communication  
and Computing Platforms  
Planning and Optimization of  
Wireless Communication Networks  
Vehicular Communication Technology
