

CALL FOR PAPERS

ICAEFB 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEFB 2022 : International Conference on Agricultural Engineering and Food Biosecurity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Engineering and Food Biosecurity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural education,
communications and leadership
Food and agricultural products
Dry farming methods and
technologies
Agricultural machinery
Precision agriculture
Food science and technology
Automation technology
Farming vehicles and fuels
Livestock technology

Plant-cell biotechnology
Food and agricultural biosecurity
Computational and systems biology,
including bioinformatics and
genomic/proteomic studies
Environmental biotechnology,
including biofilms, algal systems,
and bioremediation
Animal-cell biotechnology,
including media development
Renewable energy
Power engineering and bioenergy
Production engineering
