

CALL FOR PAPERS

ICCEA 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEA 2022 : International Conference on Cloud Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cloud Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cloud engineering
Big data management, platforms and analytics
Cloud applications and services
Cloud programming models, benchmarks, and tools
Cloud storage and databases
Cloud processing, both batch and streaming
Cloud security, privacy, compliance, and trust
Edge computing and fog computing
Energy management in cloud centers

Hybrid cloud integration
Metering, pricing, and software licensing
Mobile cloud computing
Multimedia cloud computing
Performance, dependability, and service level agreements
Resource management and optimization in the cloud
Service lifecycle management and automation
Virtualization and container technology
Workload deployment and migration
