

CALL FOR PAPERS

ICCWEAA 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCWEAA 2022 : International Conference on Computational Water, Energy and Environmental Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Water, Energy and Environmental Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water, energy, and environmental artificial intelligence and evolution application
Water, energy, and environmental bio-informatics application
Water, energy, and environmental black box modeling systems
Water, energy, and environmental control and management
Water, energy, and environmental data acquisition and remote sensing
Water, energy, and environmental decision support systems
Water, energy, and environmental expert systems
Water, energy, and environmental forecasting
Water, energy, and environmental fuzzy logic application

Water, energy, and environmental genetic algorithms application
Water, energy, and environmental information systems
Water, energy, and environmental knowledge base and data hierarchy
Water, energy, and environmental modeling and simulation
Water, energy, and environmental neural networks application
Water, energy, and environmental optimization
Water, energy, and environmental software and visualization application
Water, energy, and environmental statistics
