

CALL FOR PAPERS

ICEB 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEB 2022 : International Conference on Ecotoxicology and Biodegradation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecotoxicology and Biodegradation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|---|---|
| Ecotoxicology and environmental contamination | Defense responses to toxicants |
| Ecotoxicology and environmental safety | Air pollution |
| Common environmental toxicants | Soil and water pollution |
| Exposure to toxic chemicals | Environmental metals and metalloids |
| Effects on individuals and entire population | Pesticides and related materials |
| Prevention technologies | Mutagenic pollutants |
| Ecotoxicity testing | Ecological risk assessment |
| Environmental toxicology | Environmental cancer |
| Sources of environmental toxicity | Toxic and pharmacological effects of environmental contaminants |
| Classical toxicology, ecotoxicology, and environmental toxicology | Molecular mechanisms of toxicity |
| Environmental change and health | Biotransformation and toxicokinetics |
| Toxic action of pollutants | Toxicokinetic modelling |
| Xenobiotic action | Molecular, biochemical and physiological mechanisms |
