

CALL FOR PAPERS

ICEECT 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEECT 2022 : International Conference on Energy and Emission Control Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy and Emission Control Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Emission control technologies
Emission control technologies for sustainable development
Emission control technologies in automotive and transportation
Emission control technologies for diesel-powered vehicles
Light-duty vehicle emission control technologies
Emission control technologies in industrial applications
Emission control technologies for diesel and gasoline engines

Emission reduction technologies for diesel and gasoline engines
Diesel and gasoline particulate filters
Sulfur dioxide control technologies
Electric and hybrid vehicles
induced emission control
Building and maintenance of road infrastructures
Cleaner trucks, buses and non-road machines
