

CALL FOR PAPERS

ICEET 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEET 2022 : International Conference on Ecological Engineering and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecological Engineering and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecological engineering
Ecological development
Synthetic ecology
Bioengineering
Restoration ecology
Ecology conservation
Ecosystem rehabilitation
Stream and river restoration
Reclamation ecology
Non-renewable resource
conservation
Air quality and atmospheric
pollution
Aquaculture
Conservation

Ecosystems and ecology
Ecosystems management
Environmental economics -
sustainable services and systems
Environmental health
Environmental impact assessment
Environmental law - environmental
policies
Environmental performance of
enterprise
Global environmental change
Health aspects of waste water and
solid waste management
Landscape and city planning
Life cycle management and
sustainable production
Liquid waste treatment and
management
Pollution control technologies
