

CALL FOR PAPERS

ICFC 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFC 2022 : International Conference on Food Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food chemistry
Chemistry of food
Behavior of hydrocolloids
Food flavor chemistry
Hydrophilic colloids in food industry
Sea food and staple food
Food microbiology and impact of water on food
Food safety and food security
Rheology and kinetics of chemical reaction in food

Food storage and preservation
Food, nutrition and health
Food functionality
Bioactive constituents
Processing, fortification and packaging of food
Recent advancement in food science
Equipment's and techniques
Food dairy: science, research and sustainability
