

CALL FOR PAPERS

ICGPRMT 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGPRMT 2022 : International Conference on Ground-Penetrating Radars and Modelling Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ground-Penetrating Radars and Modelling Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Ground-penetrating radars
- Ground-penetrating radar field systems
- Ground penetrating radar design
- Modelling techniques
- Modulation techniques
- Signal processing
- Data display and interpretation

- 3D ground-penetrating radar data application
- Geophysical applications
- Vehicle localization
- Three-dimensional imaging
- Power regulation
- Radar velocity
