

CALL FOR PAPERS

ICHMCIM 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHMCIM 2022 : International Conference on Health Monitoring of Civil Infrastructure and Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Health Monitoring of Civil Infrastructure and Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Infrastructure Health in Civil
Engineering
Civil Structural Health Monitoring
and Management
Theories and Principles of
Infrastructure Health
Components of Infrastructure
Health
Decision Making in Infrastructure
Health

Decision Making Process and
Structural Health Components
Sensors and Infrastructures Health
Structural Identification
Damage Identification
Structural Health Efforts
