

CALL FOR PAPERS

ICIBBE 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIBBE 2022 : International Conference on Integrative Bioscience and Biomedical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Integrative Bioscience and Biomedical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

| | |
|-------------------------------------------------|-------------------------------------------|
| Biomedical Engineering | Biomaterials and artificial organs |
| Biomedical device engineering | Biomolecular engineering |
| Biomedical robotics | Bioimaging |
| Computational biological systems | Biotransportation |
| Biosensors and bioelectronics | Cellular engineering |
| Rehabilitation engineering and surgical devices | Anatomy and physiology |
| Bioengineering | Biomedical signal processing and control |
| Nanobiotechnology | Bio informatics and genomics |
| Biomedical imaging and biosignals | Biomedical optics and lasers |
| Diagnostic techniques in dermatology | Molecular and cellular principles |
| Biomedical and healthcare engineering | Physiological principles |
| Biomedical technology | Biochemical reactions and enzyme kinetics |
| Biomechanics | |
