

# CALL FOR PAPERS

**ICLPMTA 2022**  
**Apr 08-09, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLPMTA 2022 : International Conference on Laser Precision Microfabrication Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Laser Precision Microfabrication Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Process monitoring and control  
Laser- and photochemistry  
Nanotechnology  
Ultra-short pulse laser processing  
VUV laser and x-ray processing  
Surface treatment  
Micro-patterning and  
micro-structuring  
Micro-machining  
3-D micro- and nano-fabrication  
Micro drilling and cutting  
Micro welding and bonding  
Micro forming  
Wafer dicing

Marking and trimming  
Packaging and mounting process  
Lithography  
Manufacturing of micro devices and  
systems  
Film deposition and synthesis of  
advanced materials  
Nanomaterials synthesis  
Optics and systems for laser micro-  
and nano-processing  
Laser devices  
Industrial applications  
The future of ultra-short laser  
manufacturing  
Laser-based direct-write  
techniques  
Laser micro/nano-engineering for  
biomedical applications
