

CALL FOR PAPERS

ICN 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICN 2022 : International Conference on Nanochemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanochemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanochemistry

Applications of nanochemistry in engineering and medical applications
Nanochemistry of materials
Nanotopography and nanolithography
Synthesis and stabilization of nanoparticles
Experimental techniques in nanochemistry
Cryochemistry of metal atoms and nanoparticles
Chemical nanoreactors
Size effects in nanochemistry
Nanoparticles in science and technology
Nano bio materials
Nano devices and actuators
Inorganic nanowires

Nano-fabrication
Nanolithography
Nanosensors
Magnetic materials
Thin films
Surface-coating
Processing/characterization
Durability of composites
Plasmonics
Nanoelectronics
Clean energy
Nanomaterials
Nanofabrication
