

# CALL FOR PAPERS

**ICPDIA 2022**  
**Apr 08-09, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPDIA 2022 : International Conference on Phage Display, Innovations and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Phage Display, Innovations and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioengineering  
Phage display  
History  
Principles  
Applications  
Antibody maturation in vitro  
General protocol  
Selection of the coat protein  
Filamentous phages  
PIII  
PVIII

PVI  
PVII and pIX  
T7 phages  
Bioinformatics resources and tools  
Study of protein-protein interactions  
Protein-peptide interactions  
Protein-DNA interactions  
Genetic information  
Interaction networks  
Signed interaction networks  
RNA interference screens
