

CALL FOR PAPERS

ICSCISIT 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCISIT 2022 : International Conference on Soft Computing, Intelligent Systems and Information Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Soft Computing, Intelligent Systems and Information Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Soft Computing
Belief Networks
Big Data Architectures
Big Data for Enterprise, Government
and Society
Big Data Managements
Big Data Models and Algorithms
Chaos
Computational Intelligence
Computer Graphics
Computer Networks
Computer Vision
Control Systems
Data and Network Security

Data Mining
Decision Support Systems
DNA Computing
Expert Systems
Fuzzy Sets
Genetic Algorithms
Hybrid Systems
Imaging
Information and Communication
Technology
Intelligent Information Systems
Multi Agent System
Neural Networks
Optimization
