

# CALL FOR PAPERS

**ICSCTDT 2022**  
**Apr 08-09, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCTDT 2022 : International Conference on Software Case Tools and Design Tools is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Case Tools and Design Tools. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- |                                    |                                 |
|------------------------------------|---------------------------------|
| Software case tools                | Programming tools               |
| Case tools                         | Prototyping tools               |
| Software analysis and design tools | Web development tools           |
| Components of case tools           | Quality assurance tools         |
| Scope of case tools                | Maintenance tools               |
| Diagram tools                      | Software development life cycle |
| Process modeling tools             | Software testing                |
| Project management tools           | Software design complexity      |
| Documentation tools                | Software user interface design  |
| Analysis tools                     | Software design strategies      |
| Design tools                       | Software requirements           |
| Configuration management tools     | Software project management     |
| Change control tools               |                                 |
